

**Hungarian
National
Trading House**

MEDICAL TECHNOLOGY OF HUNGARY

100 years of innovation

Cutting-edge Hungarian solutions

Hungarian enterprises produce high quality products and services in a range of industries, offering excellent value for money at globally competitive prices. The aim of the Hungarian National Trading House, established by the Ministry of Foreign Affairs and Trade and the Hungarian Chamber of Commerce and Industry as a state export development institution, is to support these enterprises in their search for business partners and new clients in international markets. The Trading House recently expanded its commercial presence to almost 50 countries and now operates in four continents.

Hungarian National Trading House local network will find the way to connect the demand arising in foreign markets with the supply of Hungarian enterprises.

FULL-SCALE GOVERNMENT SUPPORT

The Hungarian National Trading House is responsible for the operative implementation of the Hungarian Government's external trade policy.

- Supporting bilateral economic relationships
- Cooperation with embassies, commercial attachés
Hungarian Export-Import Bank (EXIM),
Hungarian Investment Promotion Agency (HIPA)

COMPETENCE CENTRES

In order to fulfil regional needs the Hungarian National Trading House has created special Competence Centres in the following sectors: agricultural and food technologies in Cambodia, and consumer and industrial goods in Mongolia.

- Representing cutting-edge competence in their field, our experts operate on a regional level in close cooperation with local representative offices.

COMPETITIVE LANDSCAPE AND MATCHING SOLUTIONS

- Selecting appropriate Hungarian business partners
- Preparing individualized quotes
- Continuous professional advice, project management
- Consultancy on market processes and business culture
- Representing Hungarian companies at business events, B2B meetings

MEDICAL TECHNOLOGY

100 YEARS OF INNOVATION

Medical Technology is one of Hungary's most traditional economic sectors, that has seen almost 100 years of widely acknowledged innovation, highly specialized technical development and notable exports to the global market. Several Hungarian companies have achieved international recognition with cutting edge products and technologies.

Major product groups include orthopaedic appliances, X-ray generators, electro-diagnostic devices, laboratory analytic equipment, imaging technology, stainless steel surgical and dental instruments, artificial body parts, needles and syringes. Majority of goods are exported, more than 150 Hungarian companies are active exporters. Cutting edge Hungarian medical device products are present in almost all parts of the world.

TOP 5 PRODUCT CATEGORY / COMPETENCE

- imaging diagnostics
- laboratory diagnostics
- cardiology, pulmonology, neonatology instruments
- surgical tools, hand tools, implants
- dental and orthopaedic tools, materials, implants, measuring instruments, other health preserving tools

IMAGING DIAGNOSTIC INSTRUMENTS

- analogue and digital human and veterinary radiology instruments, mobile radiology equipment;
- microscopes;
- PACS systems, mammography units;
- SPECT/CT/PET scanners, clinical and preclinical scanners, nanoscanners; digital pathology systems, histopathology instruments

LABORATORY DIAGNOSTIC INSTRUMENTS

- haematology and coagulation reagents and tools, molecular diagnostic tests and instruments, clinical chemistry reagents;
- blood glucose meters, urine diagnostics tools
- gynaecology tools
- podiatry tools

CARDIOLOGY, PULMONOLOGY, NEONATOLOGY INSTRUMENTS

- human and veterinary ECG equipment, defibrillators, monitors,
- ambulatory blood pressure monitors, Holter monitors, sleep apnoea monitors;
- arteriographs; spirometers;
- fixed or portable incubators, heaters and phototherapy instruments

SURGICAL TOOLS, HAND TOOLS, IMPLANTS

- laparoscopy tools, trocars, neurosurgical tools, cranial perforators, endoscopy tools;
- knives, scissors, forceps, clamps, diagnostic, gynaecology, urology, thoracic- and neurosurgical, traumatology, otolaryngology hand tools;
- traumatology, orthopaedic, spinal and veterinary implants

DENTAL AND ORTHOPAEDIC TOOLS, MATERIALS, IMPLANTS, MEASURING INSTRUMENTS

- dental implants, dental technics tools and materials, zirconium;
- therapeutic, first aid and hospital ortheses;
- orthopaedic tools
- infant scales, infra lamps, thermometers, humidifier equipment
- other health preserving tools

PARTNER COMPANIES

Control-X Medical Ltd.

COMPANY PROFILE

Employee: 14
Founded: 1990
Web: www.cxmed.com

Industry: Medical equipment and devices for human and veterinary X-rays

ABOUT US

Control-X Medical has been operating for almost 3 decades in the medical and hospital equipment sector supplying complete diagnostic x-ray systems, components, and turn-key set-ups for clinics, hospitals and HMOs.

Control-X Medical has solid experience in producing high quality diagnostic equipment for the medical and veterinary x-ray industry.

Our success results from understanding our customers' needs, developing products to meet those needs and providing continued support insuring customer satisfaction.

UNIQUE SELLING POINT, VALUES

- excellent price for value ratio
- short delivery times, flexibility
- effective after sales customer support

KEY PRODUCTS / SERVICES / SOLUTIONS

Radiographic systems:

- Z-Motion Universal Digital U-arm System
- Perform-X HF Radiographic Systems
- Singel and Dual Panel Digital Radiographic Systems
- Chest rooms

ZooMax Veterinary Systems:

- Basic Veterinary Set-Up
- Digital Veterinary Set-up
- Elevating Table with Ceiling Tube Mount

Major systems components
Medical film processors

REFERENCES, KEY PARTNERS

We are supplying top distributing partners from over 45 countries e.g.: Algeria, Australia, France, Germany, Morocco, Poland, Portugal, Spain, Sri Lanka, Turkey, UK, USA, Venezuela, Zimbabwe

CERTIFICATIONS & AWARDS

Hungarian Quality Product Award

We hold major medical certificates to comply with requirements on different markets. (CE, FDA, ISO 9001, ISO 13485)

EMD Endoscope Device Manufacturing and Sales Ltd.

COMPANY PROFILE

Employee: 41
Founded: 1997
Web: www.emd.hu

Industry: Endoscopic and surgical devices

ABOUT US

Our company grew from our expertise servicing the medical equipment of 5 major European hospitals. Through this work we identified the lack of high-quality medical instrumentation in the industry and grew to produce world class innovative medical instruments.

UNIQUE SELLING POINT, VALUES

“ALL IN ONE HAND – From the designer’s bench till the after-sales services”

- Our highly-skilled engineers work closely with end-users and research institutions, using a state-of-the-art CAD software aided design process to continuously innovate and expand our product line.
- Our production unit works with world-class technology to turn innovations into leading patented technical solutions such as our laparoscopy and neurosurgery products.

KEY PRODUCTS / SERVICES / SOLUTIONS

Laparoscopy (e.g. Trocar Systems and Telescopes)

Endo-Urology (e.g. Cysto-urethrosopes, Percutan Nephrosopes, Resectoscopes, Uretero-renoscopes or Urethrotomes)

Arthroscopy (e.g. Telescopes or Trocar Systems)

Hysteroscopy (e.g. Hystero-Resectoscopes, Hysteroscope Sheaths)

Neurosurgery (e.g. Aneurysm clips, Highspeed Motordrill Systems, Neuro-Endoscopy or Stereotactic System)

ENT (e.g. Laryngoscopes, Oscopes, Sinuscopes)

Open Surgery (e.g. Bipolar Instruments and Cables, Drills and Reamers, Monopolar Instruments and Cables, Retractor Sets, Saw Blades)

- Stringent QAS controls the complete production process at all levels and delivers products that comply even with the most stringent medical device regulations.

REFERENCES, KEY PARTNERS

We are supplying partners over 20 countries, our top partners are in Pakistan, India, Egypt.

CERTIFICATIONS & AWARDS

Our company complies with ISO 13485:2012 and the 93/42/EEC Quality Assurance System certification for medical devices.

Innomed Medical Inc.

COMPANY PROFILE

Employee: 130

Founded: 1989

Web: www.innomed.hu

Industry: Cardiological and radiological medical devices for human and veterinary applications

ABOUT US

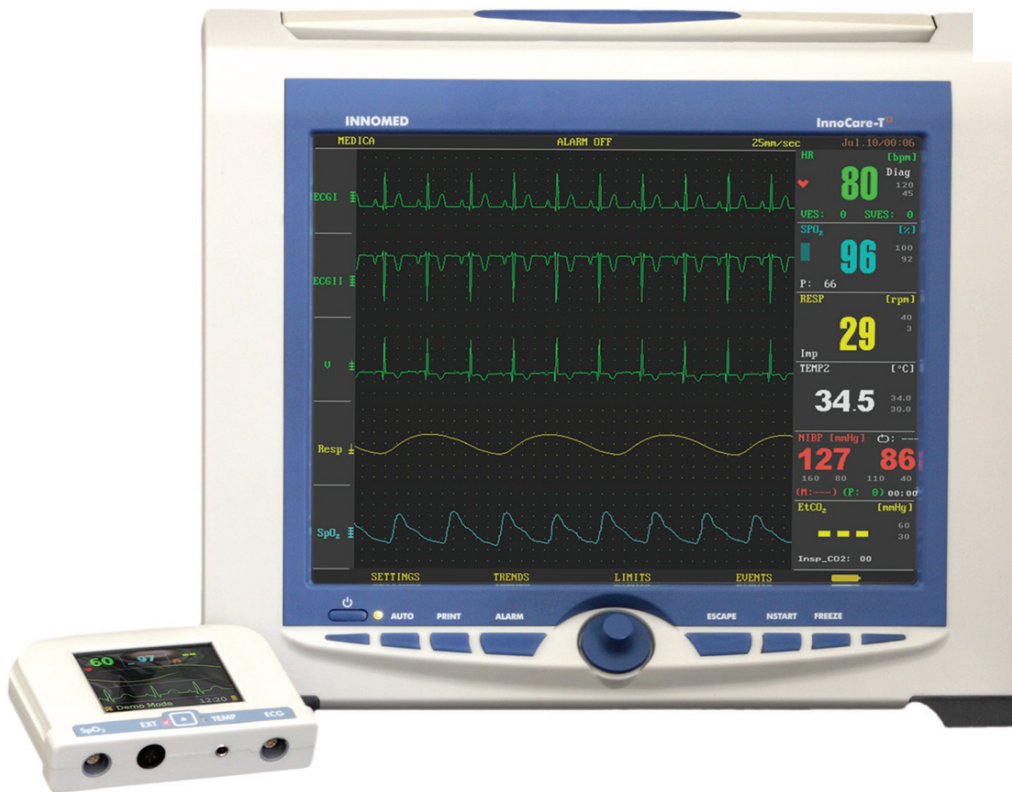

Innomed, founded in 1989 is developing and manufacturing CE marked medical devices for human and veterinary applications in cardiology and radiology.

Founded by developing engineers, INNOMED believes that the company's main activity remains R+D, thus the company is reinvesting its revenues in development.

The company's core profile remained unchanged during the past 25 years, while its product range expanded throughout the years, as a result of the continuous R&D activity.

UNIQUE SELLING POINT, VALUES

- Own development of user friendly, affordable devices
- Well designed and compliant with international standards
- Extensive training provided in in-house training academy

KEY PRODUCTS / SERVICES / SOLUTIONS

- Our cardiology line: ECGs with cardio logical database management software, PC-based exercise and holter systems, patient monitors, defibrillators.
- Our radiology line: mobile X-ray units, remote controlled X-ray tilting tables, high-frequency X-ray generators, digital X-ray systems, PACS systems, DR flat panel detectors, Chest CAD systems.

- Specialised veterinary devices
- 25 years' experience in developing and manufacturing CE marked medical devices for human and veterinary applications

REFERENCES, KEY PARTNERS

- Our products are distributed in over 110 countries
- Focus regions are Eastern Europe, Middle East and Latin-America

CERTIFICATIONS & AWARDS

- Award for Innovation (TOP-X HF XRay generator)
- Award for Industrial Innovation(HeartScreen 80GL Electrocardiograph)
- Red Dot Design award ((HeartScreen 80GL Electrocardiograph)
- Project of the Year 2005
- Award for the Hungarian Economy

KEROX Ltd.

COMPANY PROFILE

Employee: 722

Founded: 1993

Web: www.kerodental.net

Industry: Dental industry / Dental CAD/CAM Labs

ABOUT US

Kerox Dental is a 30 year old, high-precision, ceramics manufacturer based in the EU, with a production facility in Hungary. We manufacture and sell over 60 million high-tech ceramic products each year, specializing in creating the highest quality dental zirconia on the market.

Our products are supported by our dedicated R&D and engineering team of 34 experts in the field.

We provide superior customer service care, reliable on-time delivery and competitive prices.

UNIQUE SELLING POINT, VALUES

- Unique pressing and sintering technology
- Total quality management
- Most advanced qualifying methods and automatic inspection machinery
- Demanding multi-stage quality control procedures including 100% inspection of all parts

"No technological compromise to quality"

KEY PRODUCTS / SERVICES / SOLUTIONS

Production and sales of:

- High-Quality Zirconia Blanks
- E4K Milling Machine
- E4K Colouring Liquid
- Pmma Premia
- Base Wax

REFERENCES, KEY PARTNERS

Kerox has customers in more than 30 countries worldwide, including those in Europe, North, South and Latin America, Asia, Australia and Africa.

CERTIFICATIONS & AWARDS

WE ARE ISO (9001), CE AND FDA CERTIFIED AND HOLD A VARIETY OF PATENTS.

MEDICOR Elektronika Co.Ltd.

COMPANY PROFILE

Employee: 26
Founded: 1963
Web: www.medicor.eu

Industry: Medical equipment and devices for neonates

ABOUT US

With five decades of experience in neonatal care, we offer the latest cutting-edge technology in the field of neonatal care for ICU/NICU hospital departments all over the world.

We develop our products through our own R&D center in cooperation with leading Hungarian universities, taking advantage of a long history of Hungarian innovation.

We ensure professional marketing, sales and service background to our partners.

UNIQUE SELLING POINT, VALUES

MEDICOR is proud of having

- more than 50 years of experience in the field of medical equipment production
- authentic European production
- decades of professional service background and 24/7 support

KEY PRODUCTS / SERVICES / SOLUTIONS

Production and sales of:

- Neonatal incubators
- Neonatal warming and resuscitation tables

- competitive pricing
- cutting edge technology, highest quality
- short delivery terms

REFERENCES, KEY PARTNERS

We supply our neonatal care products to more than 100 countries all over the world, e.g. Russia, Jordan, Africa countries. Our products have been a part of the LTA of UN organizations and UNICEF/WHO since 2009.

CERTIFICATIONS & AWARDS

Our equipments and devices are CE approved and MEDICOR is ISO certified.

Medicor Hand Instrument Co.

COMPANY PROFILE

Employee: 188
Founded: 1952
Web: www.medicorkm.hu

Industry: Surgical and dental equipment

ABOUT US

Since 1952, Medicor Hand Instrument Co. has become one of the world's most reputable manufacturers and distributors of medical hand instruments.

Our dedicated team of innovation-oriented staff are the key to our success, helping us achieve the top-end quality required for the most demanding US and German markets.

Our product catalogue offers a full range of surgical and dental instruments for human and veterinary hospitals and clinics.

UNIQUE SELLING POINT, VALUES

- Our products are made from the highest-quality German base materials for medical use
- Our manufacturing facilities are operating under the most stringent quality and process controls
- We have decades long experience of production and selling on US and EU markets

KEY PRODUCTS / SERVICES / SOLUTIONS

- Knives, scalpels, scissors, pincers
- Tissue and tampon forceps, artery forceps, probes, needle forceps
- Surgical hooks, spatulas, opening forceps
- Trocar instruments
- Diagnostic, gynecology, neurosurgery, tracheotomy, thoracotomy, traumatological and orthopaedic instruments
- Organ, gal stone, kidney forceps
- Bone, post mortem instruments
- Instrument trays
- Eye Ear and laryngology instruments
- Microsurgical instruments
- Dental, dental technician and dental surgical instruments
- Dental instruments for equine veterinaries

- We are in cooperation with most reputable US and European medical device companies
- We offer 10-year guarantees for all of our products as well as free repairs or replacement

REFERENCES, KEY PARTNERS

Our products are sold globally in the US, Europe, Japan, Russia and other countries and 93% of our sales revenues are realized from export.

CERTIFICATIONS & AWARDS

Our product excellence has been acknowledged through numerous domestic and international awards for high standards including the National Quality Award in 2000 the European Quality Award in 2003.

Our products are certified under EN ISO 9001:2008, EN ISO 13485:2003 + AC:2009, FDA (USA): 9680519 and under the European CE directive: MDD 93/42 EEC 06.14.1993

Mediso Medical Imaging Systems Ltd.

COMPANY PROFILE

Employee: 191
Founded: 1991
Web: www.mediso.com

Industry: SPECT, CT, PET, MRI modalities
in molecular imaging

ABOUT US

Mediso works in the field of nuclear medicine since 1990 with a profile of design, development, manufacturing, selling and servicing molecular imaging multi-modality equipment.

The company offers complete solutions from hardware design to evaluation and quantification software both for clinical patient care and scientific preclinical research.

UNIQUE SELLING POINT, VALUES

- The high quality unique systems designed with top level engineering and elaborated solid solutions are implemented to physical reality by the manufacturing section.
- Decades long experience in research and manufacturing of nuclear equipments.
- Unique triple modality, upgradable SPECT-CT-PET clinical imaging system.
- Outstanding preclinical research imaging solutions with four modalities, SPECT, PET, CT, MRI.

KEY PRODUCTS / SERVICES / SOLUTIONS

- Clinical SPECT, SPECT-CT, SPECT-CT-PET, PET-CT systems
- Brand new TRIO 3-Head SPECT-based system with MultiPinHole collimators
- NanoScan preclinical research systems with SPECT-CT-PET-MRI combinations
- Running clinical diagnostic, research, training centers

REFERENCES, KEY PARTNERS

1500+ Install base worldwide, presence in 93+ countries, cooperation with 40+ distribution partners. Cooperation with UN organization: IAEA, Vienna, Subsidiaries in Germany, USA, Poland, Australia.

CERTIFICATIONS & AWARDS

Product design, development, production and services comply with EN ISO 13485 and EN ISO 14971.

Frost & Sullivan 2012 European Preclinical Imaging New Product Innovation Award
Grand Prize of Innovation 2010

Meditech Ltd.

COMPANY PROFILE

Employee: 28
Founded: 1990
Web: www.meditech.eu

Industry: Cardiovascular monitoring units

ABOUT US

Meditech has over 25 years of experience in manufacturing ambulatory blood pressure monitors and software applications tracking recorded data.

Our ambulatory blood pressure monitors are used successfully by physicians and specialists, in hospitals and in international research programs as well.

We offer 24-hour ambulatory blood pressure monitors for medical device distributors and their clients.

UNIQUE SELLING POINT, VALUES

- Excellent price for value ratio.
- Our cutting edge technology 24-hour monitoring units record blood pressure data for 24-hours post medical visit for more accurate blood pressure profiles.
- Our products have reliable information about blood pressure changes, overnight dipping and morning surges to lower the chance of misdiagnosis and enable better drug treatment.

KEY PRODUCTS / SERVICES / SOLUTIONS

- Ambulatory blood pressure monitors and pulse oximeters
- ECG event recorder
- Holter ECG monitors
- Multifunctional monitors
- Analysis softwares

REFERENCES, KEY PARTNERS

Meditech customers include medical device distributors, OEM partners, pharmaceutical companies and medical professionals worldwide. Argentina, Brazil, China, Germany, Hungary, Russia and the United Kingdom currently represent our most significant markets.

CERTIFICATIONS & AWARDS

Our company is ISO-certified, our monitors have CE mark and FDA market clearance.

MOMERT Co Ltd.

COMPANY PROFILE

Employee: 247
Founded: 1967
Web: www.momert.hu

Industry: Optical instruments and services

ABOUT US

Besides having 50 years of manufacturing experience of scales and other personal and professional appliances, Momert lays emphasis on baby care and healthcare too. Our blood pressure monitors and thermometers help everyone to keep good condition, and besides baby scales we offer many useful accessories for the moms.

For our customers Momert brand name means excellent quality, long lifetime products and reliability. Production, trading, product development and tooling are main fields of our activity. Thanks to our world-wide business contacts our products are available all over the world. We offer modern technologies, innovative design and an extending range of scales, household appliances and infrared lamps. We strive for building up long-term business relationships with our partners.

UNIQUE SELLING POINT, VALUES

- Long lifetime products
- Excellent quality
- Innovative design
- Wide product range for households, families

KEY PRODUCTS / SERVICES / SOLUTIONS

- Personal scales of various design, analogue (mechanical) and electronic
- Baby-child scales of various design, analogue (mechanical) and electronic
- Special electronic scales for household, agricultural purposes, for handicapped, weighing animals, small pets, large pets, parcels.
- Infrared lamps of 100 W and 150 W for healthcare

REFERENCES, KEY PARTNERS

Hungarian Brands Award 2013, 2014.

Our key partners are Siplec, Kaufland, Tesco, Auchan, Media Markt, Interspar, Medel, Gima, Ade, Artsana,

The company is ISO certified: ISO9001, ISO13485 (beginning from 1st December 2016 for infrared lamps).

CERTIFICATIONS & AWARDS

Momert is a holder of qualification ISO 9001.

Orkrisz Ltd.

COMPANY PROFILE

Employee: 18
Founded: 1992
Web: www.orkrisz.hu / www.chrisofix.ch

Industry: Optical instruments and services

ABOUT US

The Hungarian Orkrisz Ltd. was associated to Swiss Chrisofix AG in 1996. Since that time, it has specialized in developing, manufacturing and marketing a world-wide patented product range of orthopaedic splints/orthoses.

In contrast to the traditional splints available on the market, which ensure only segmental fixation, Chrisofix technology is combining the advantages of circular (e.g., Plaster of Paris, thermoplastic materials) and the quick applicable segmental stable (splints and orthoses) fixations.

UNIQUE SELLING POINT, VALUES

In contrast to the conventional orthoses (segmental fixations) we can offer

- stable semicircular or circular fixation, which can be adjusted and readjusted directly on the patient within one minute, without water or heat
- new therapeutic possibilities (rib fracture, thumb osteoarthritis, etc.)
- more convenient daily hygiene and an earlier start of physiotherapy

KEY PRODUCTS / SERVICES / SOLUTIONS

Chrisofix products belong to Class I.:

- Circular stable (gypsum-like) fixation with quick applicable orthosis
- Specific, disease-related treatment with orthoses in rib fracture, in carpal tunnel syndrome, saddle joint osteoarthritis, etc.
- Reusable products even by more hospitalised patients

REFERENCES, KEY PARTNERS

We have partners in Switzerland, France, Germany, Italy, Belgium, South-Korea, China.

CERTIFICATIONS & AWARDS

Academy-Patent Award of the Hungarian Academy of Sciences (2009)
We hold a variety of patents of splinting technologies and products.

PI Dental Manufacturing Ltd.

COMPANY PROFILE

Employee: 20
Founded: 2000
Web: www.pidental.hu

Industry: Dental equipments and machines
for dental technicians

ABOUT US

PI Dental has over 35 years of experience in manufacturing machines for dental laboratories. 90% of our production is made for export. Our flagship products can compete with the leading companies in quality and price.

The technical service is an especially important question for our company. Our aim is that no user, anywhere in the world should be prevented from working due to technical failures in our machines.

UNIQUE SELLING POINT, VALUES

- Our philosophy: The best quality for a reasonable price.
- Special focus on technical services.
- Putting great emphasis on the innovation, working with a permanent technical development team.

KEY PRODUCTS / SERVICES / SOLUTIONS

- Casting machine (Silvercast, Hexacast)
- Milling machine (Orthoflex) Polymerisation machine (Polimer PM-20, Polimer PM-45)
- CAD/CAM system (Zirconium Milling machine, Furnace, 3D scanner)
- Wax Modelling (Penwax, Fluiwax)

REFERENCES, KEY PARTNERS

We have partners from all over the world, e.g.: Romania, Croatia, Poland, Czech Republic, China, Belgium, Italy, U.K., France, Greece, Russia, Hong Kong, India, Japan, Korea, Lebanon, Moldova, Spain, Saudi Arabia, U.S.A.

CERTIFICATIONS & AWARDS

All of our products are CE-certified by TÜV Rheinland and our company has ISO 9001:2001 certification.

Podiart Ltd.

COMPANY PROFILE

Employee: 19
Founded: 2011
Web: www.podiart.com

Industry: Medical device

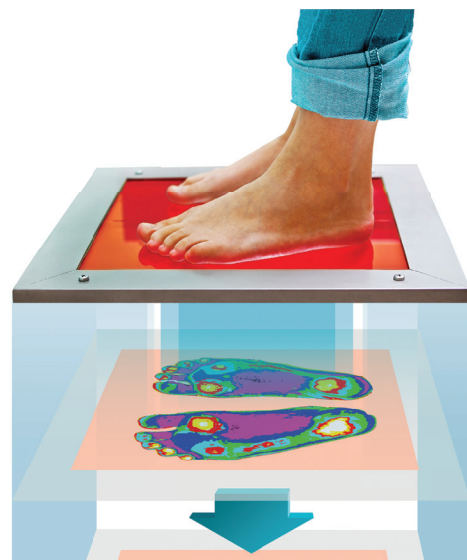

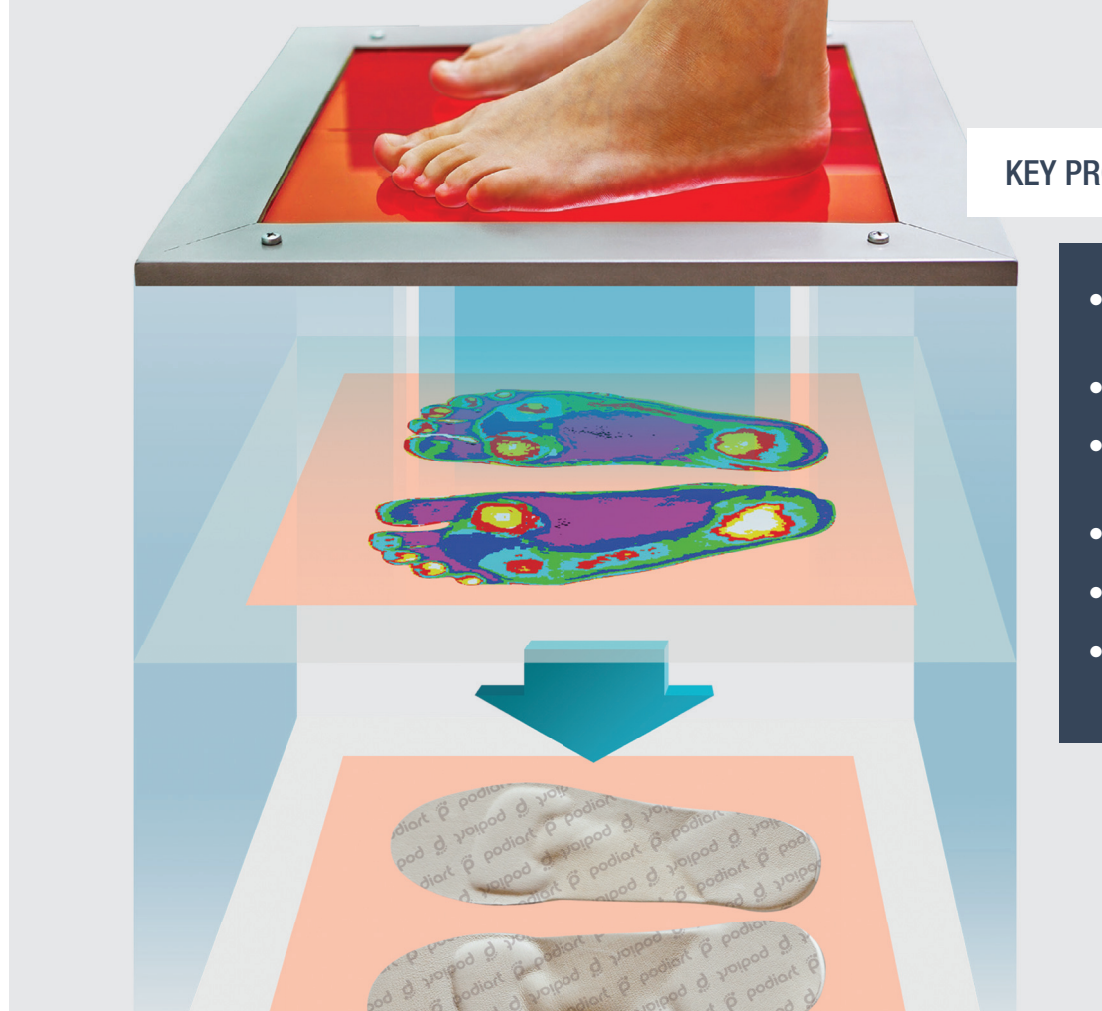

ABOUT US

Our company, Podiart Ltd. and its predecessor Pedikom Ltd., was among the first in the world to start the modern examination and novel treatment of feet differing from traditional orthopaedic methods. We have been using our patented method to check people's feet for over 23 years. During this time we have scanned and stored images for more than half a million patients.

Both the diagnostics, designing and production of the orthotics are the result of long years of experience. Examining the feet and making orthotic insoles for half a million people as well as their feedback enriched the knowledge base which is the best quality guarantee for this activity.

UNIQUE SELLING POINT, VALUES

- Best advantage of computer technology while preserving the traditions of manual craftsmanship
- Storage of recorded images in the central database

KEY PRODUCTS / SERVICES / SOLUTIONS

- Best advantage of computer technology while preserving the traditions of manual craftsmanship
- Storage of recorded images in the central database
- Half a million foot checks giving us a distinct advantage
- Regular maintenance and updating of the recording software
- Continuous contact in everyday work
- Helping our partners achieve business success by continual improvement and new products

TensioMed Ltd.

COMPANY PROFILE

Employee: 6
Founded: 1999
Web: www.tensiomed.com

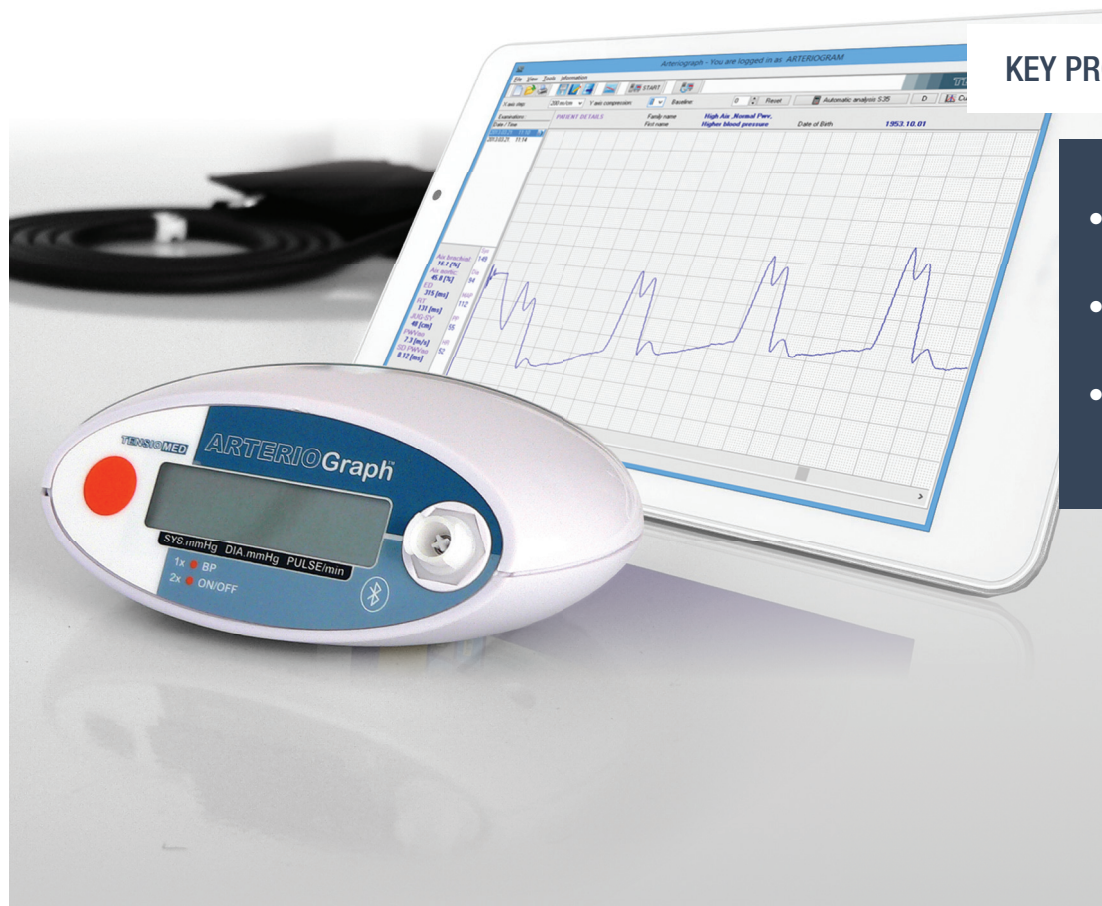

Industry: Cardiovascular diagnostic devices,
arteriographs

ABOUT US

Our original, oscillometric technology covers the hypertension and atherosclerosis diagnostics and more. Not only do we provide BHS validated blood pressure monitors, but the only solution for expanding the arterial stiffness measurement into the primary care settings by uncompromised features in monitoring peripheral and central blood pressure, furthermore arterial stiffness (Aortic Pulse Wave Velocity - PWVao, Augmentation index - Aix and Central Systolic Blood Pressure - SBPao) even for 24 hours.

UNIQUE SELLING POINT, VALUES

- we offer the one and only existing technology that involves a decade of knowledge and clinical experience enabling the management of cardiovascular screening on large population within the primary care settings
- our patented and marketed technology Arteriograph is considered to be the GOLD STANDARD of the oscillometric arterial stiffness measurement methods

KEY PRODUCTS / SERVICES / SOLUTIONS

- Arteriograph: The Gold Standard Technology in Oscillometric Arterial Stiffness Measurement
- Arteriograph24: The Innovative Expansion of Arterial Stiffness Measurement throughout the Day
- TensioDay Plus: The Creative Solution of Simultaneous Peripheral and Central BP Monitoring

REFERENCES, KEY PARTNERS

Our Arteriographs are used at most reputable research centers at University of Oxford, University of Cambridge, Karolinska Institute, Charité Berlin, University of Essen.

CERTIFICATIONS & AWARDS

- MSZ EN ISO 13485:2012

Thor Laboratories Ltd.

COMPANY PROFILE

Employee: 10
Founded: 1998
Web: www.thorlabor.com

Industry: diagnostic medical devices

ABOUT US

THOR manufactures and develops a wide range of medical diagnostic systems and Flow sensors.

THOR Ultrasonic Spirometer is the latest technology in pulmonary function diagnostics with innovative unique features like automated internal calibration, waterproof, easy-to-disinfect sensor, and intelligent medical decision support system with human voice interpretation.

Wireless, handheld models for Pharmaceutical Testing or TeleHealth Subsystem and for Home care are also available.

UNIQUE SELLING POINT, VALUES

- High quality medical technology development and manufacturing
- Efficient sourcing network for components and subsystems from Asia and Central Europe
- Our flagship products, THOR ultrasonic respiratory diagnostic systems are
 - cross contamination free
 - disinfectable
 - fully automated
 - easy to use medical devices

KEY PRODUCTS / SERVICES / SOLUTIONS

- Diagnostic medical devices in pulmonary function diagnostics
- High quality sensor technologies, wireless and handheld models
 - spirotube pc spirometer
 - spiorthor handheld spirometer
 - otthon handheld spirometer with touchscreen
 - spirotube mobile edition with bluetooth

upcoming products:

- remote monitoring of patients on cpap, bipap, ppap, and medical ventilator support
- thor portable cpap/ppap with integrated long-term inhalator and air purification system
