

The company MULTIMEX, founded in 1991, is a dynamically growing, wholly Hungarian enterprise, with a secure financial base and infrastructure. Our company was the first to start dealing with priority series management systems in Hungary, and we are proud to introduce this customer management culture. Over the past 25 years we have installed almost 1000 systems in Hungary and central Europe, which today operate at a high level, and meet the expectations of our customers.

Incorporating our systems into a single surface we created our centralized Q-FUSION integrated CFM system, which with its modular structure can and still from a unique platform to serve the entire CFM range (series systems Priority, Multimedia ((DMS), appointment booking, satisfaction surveys). Our work plays an important role in the various integrated solutions, thanks to which the Q-FUSION system has the ability to communicate with external systems.

We offer all the necessary elements of the priority series management systems, from the automatic priority paper dispenser to the screens and various accessories. We pay special attention to the quality of our products, while our goal is to provide material with excellent cost-quality to our customers, from stable stocks.

We are looking for bodies of integrated systems for long-term cooperation and business relationship, based on mutual benefits, which:

- Are active in the IT field
- Want to add new products to their portfolio
- Have a satisfactory technical and software framework
- Want to exploit their existing relationships with customer
- Have established good business relationships in the local market with health, government, service providers
- Undertake to carry out a certain annual turnover, at their own risk and from own

MULTIMEX Kft. In the framework of a contractual relationship ensures:

- Components of hardware and software systems
- Special Training
- Continuous support and update training
- Provision of a guarantee for the delivered product
- Provision of technical forms and marketing materials to distributors
- and customers of the distributor, if necessary
