

CAPSOLUTE EUROPE COFFEE COMPANY 2024.

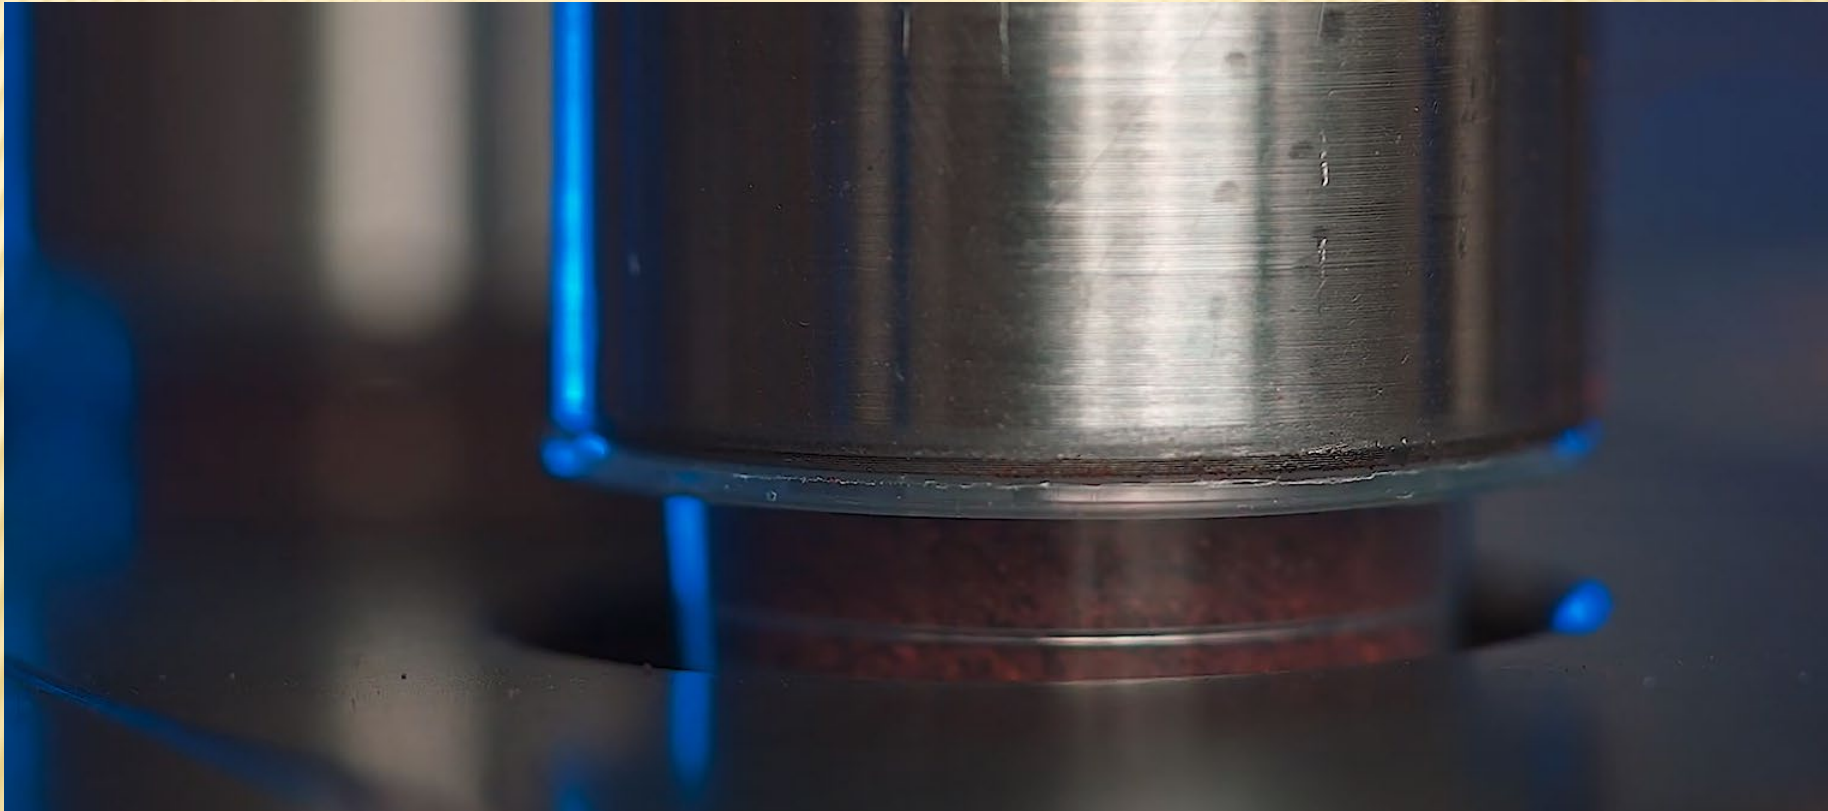

CAPSOLUTE EUROPE COMPANY

- ✘ New company
- ✘ Dynamic development
- ✘ Using the latest technology
- ✘ Open business policy
- ✘ Environmental awareness
- ✘ We only work with ground-roasted coffee
- ✘ A new way to flavour coffee in any type of capsule.
- ✘ Producing quality products
- ✘ Putting customer needs first

TECHNOLOGY 1.

- ✘ Production structure 1.
 - + Nespresso compatible capsule combi-line vending machine system (NPC)
 - + Production max capacity = 10 Million pieces/month
 - ✘ The capsules are placed in a box by an automatic machine on the connected production line.
 - ✘ We are able to pack the standard 10 capsules in the flat box.
 - ✘ We are able to pack 10 capsules in the long box (tube) as the benchmark

FILLING THE NPC CAPSULE WITH GROUND-ROASTED COFFEE

CAPSULES NPC

- ✘ We can use capsules made from all kinds of raw materials
- ✘ We can flavour the coffee
- ✘ PP material
- ✘ ALU
- ✘ Compostable 
 - + Decomposes after 27 months
 - + Optional colour on request

TECHNOLOGY 2.

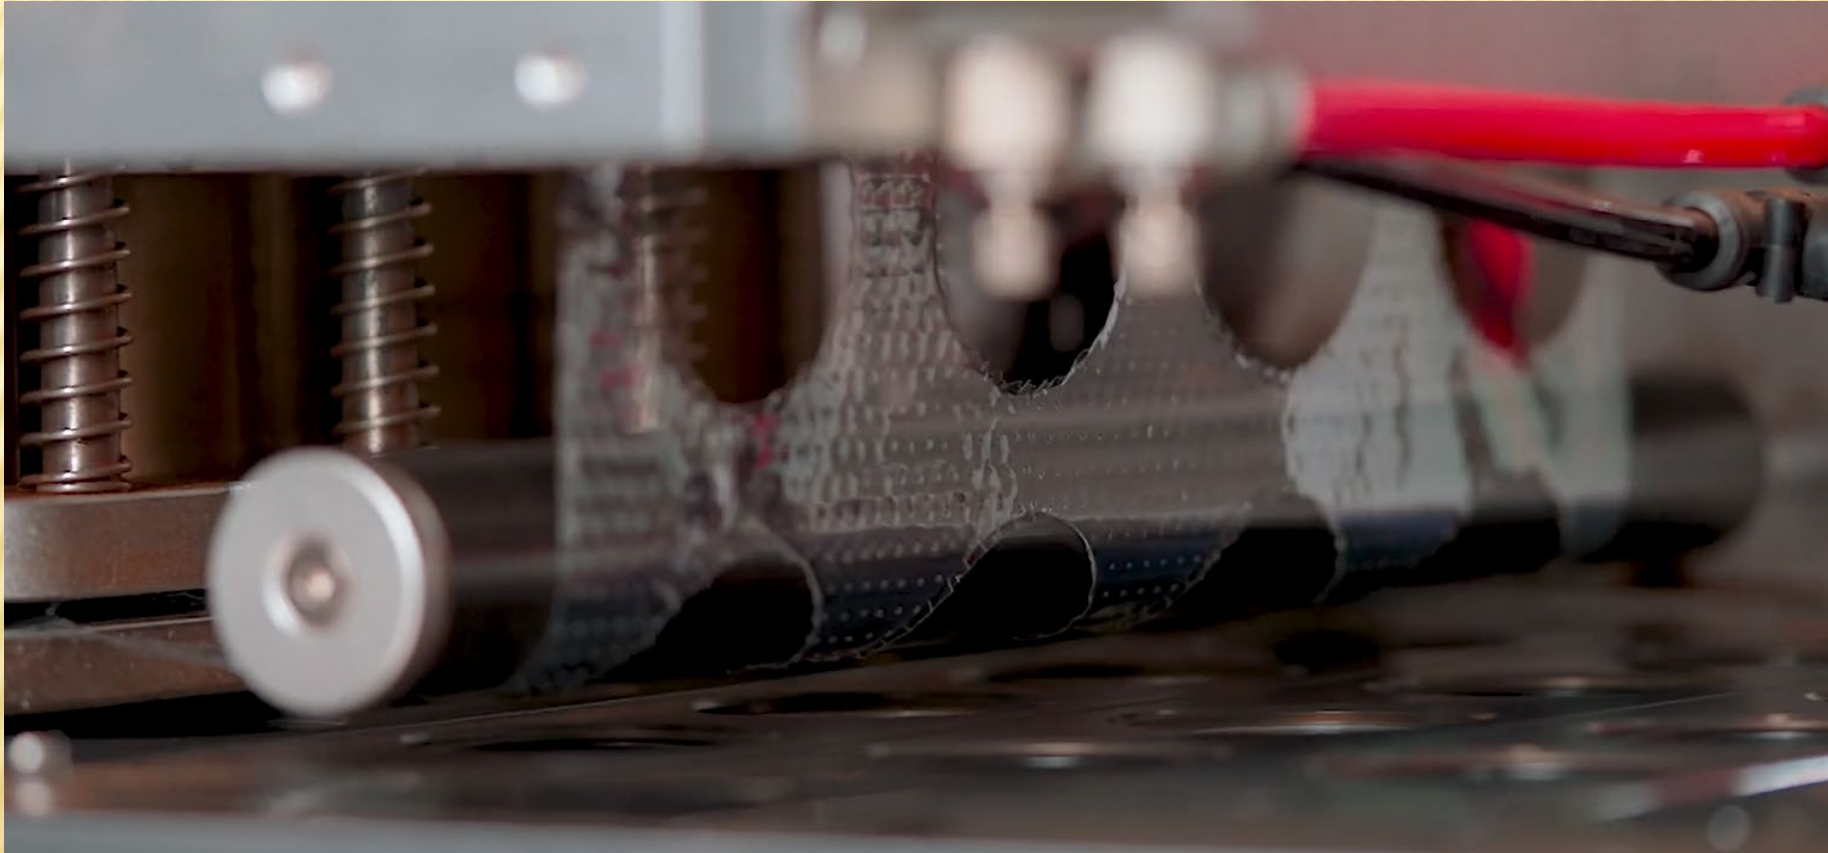

- ✘ Production structure 2.
 - + Dolce Gusto compatible capsule combi-line vending machine system (DGC)
 - + Production max capacity = 8 Million pieces/month
 - ✘ The capsules are placed in a box by an automatic machine on the connected production line.
 - ✘ We are able to pack the standard 16 capsules in, as the benchmark
 - ✘ The Cappuccino and Latte macchiato, 8 coffee + 8 milk capsules, are made with milk capsules.

CAPSULES DGC

- ✘ We use a new generation of DGC capsules.
- ✘ This type of capsule contains a microfoil protection.
- ✘ This prevents the coffee from getting wet or soggy and allows it to be prepared under high pressure.
- ✘ Any colour sealing foil can be chosen, even with lettering or logo.
- ✘ We can flavour the coffee in the capsule

MICRO FOIL PLACEMENT IS VERY IMPORTANT

Thank you for your
attention
