

PÉCSI BREWERY

Pécsi Brewery is an independent brewery in Hungary with 170 years long uninterrupted history. Our facility meets the highest product quality and environmental standards. We use our own water source, and have a stable access to regional supply of ingredients.

While our traditional lager products are among Hungary's most popular beers, we have successfully started to market our new **Craft Beers, such as Pale Ale, APA and Wheat Beer.**

Out of commitment to environment and sustainability, Pécsi launched its **Organic Product Series**, including Hungary's first Organic Gluten-Free Lager. With our **Gluten-Free products** we strive to care for our customers' emerging needs for health friendly products. Additionally, we are proud to be internationally **KOSHER** certified.

The brewery is certified to AO ECS standards and each gluten-free batch is individually tested by an independent control body (SGS).

Pécsi's goal is to become a strong leader in Organic and Gluten-Free beer production. Our organic pilsner malt is from Hungarian suppliers while organic special malts are purchased from Germany. Conventional hops are coming from the USA and Germany.

Private Label: we produce PL for selected partners.
