Your business partner for smart IoT solutions:

CARDWARE

ONLINE MONITORING OF ELECTRICITY CONSUMPTION
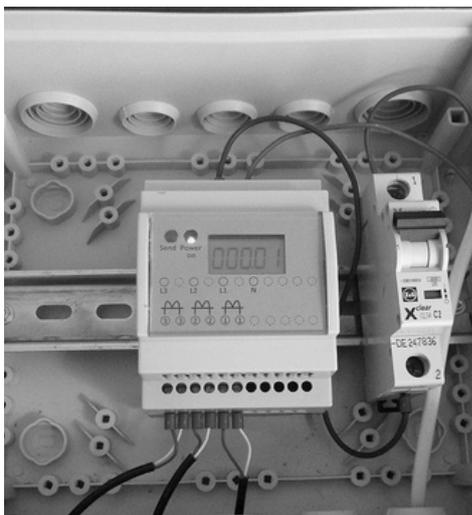

- 1 and 3 PHASE METERS
- TWO-WAY RADIO COMMUNICATION
- ISM FREQUENCY BAND, 10 dBm
- GSM GATEWAY ON 2G/4G, NB-IoT
- POSSIBILITY FOR REMOTE ON/OFF SWITCHING OF APPLIANCES

- NAPRAKÉSZ FOGYASZTÁSI ÉTÉKEK
- AUTOMATIKUS MŰKÖDÉS
- ONLINE ESZKÖZ TÁVFELÜGYELET
- KIÉRTESÍTÉSEK, RIASZTÁSOK

SMART METERING

SOLUTIONS PROVIDED BY CARDWARE:

- Heat cot allocators
- Water meters
- Heat meters
- **Electricity meters**
- Gas meters
- Air quality meters
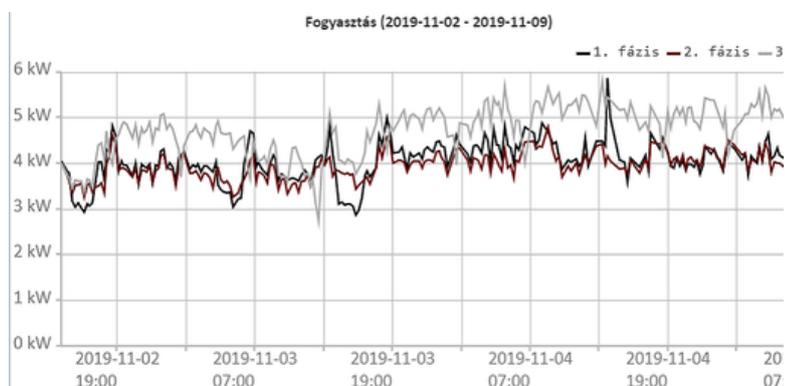

The service provides a web based real-time consumption profile broken down to each individual appliance. The server-side application of the system makes it possible to balance the load on the electrical network by switching individual ON and OFF. Provides data for energy calculations and rationalization.
